

RENO 7's

RENO 7'S

Who doesn't have a road trip in the US on their bucket list? Imagine you've invited your best friends along for the trip of a lifetime. As you're cruising down the highway together, wind in your faces and the landscape of Nevada rolling out around you, there's nothing but blue skies and free time ahead.

Driving by a road sign that says '7 Miles to Reno', you feel the pull of the lucky 7s calling your name. Why not enjoy a weekend at this popular gambler's resort? And as you pull into the city, you notice a Fortune Wheel stacked with 7s. This might just be your lucky day.

Paying tribute to Reno's long casino history, Reno 7's is a traditional 3-reel slot with classic symbols, like 7s, bars, bells, and fruits. This slot also boasts high volatility and a Free Spins Bonus, a Buy feature (pay to get instant entry to the Free Spins), and a Wheel of 7s feature where you can win 7,777 x your bet!
