Game Features

Wins of Fortune Respin

Any win triggers the re-spins feature on Wins of Fortune. The winning symbols move one step to the left as the grid evolves, and remaining symbols stick for the re-spin. Wins are paid for each re-spin and continues until there are no more wins.

Super Respin Feature

The sky turns red in the Super Respin mode, which starts when the game reaches the full 5x5 grid.

All winning symbols stay, and the game re-spins until there are no additional winning symbols on the grid.
