## QUICKSPIN

### Game Features

#### Joker Strike Feature

The Joker Strike feature is triggered by any symbol line win! If the outer wheel marker stops on the joker symbol in any initiating line win, the Joker Strike feature will add symbols to the reels. Also, 6 to 10 extra symbols will be added to the game for additional wins.

The number of extra symbols will be determined by the length of the longest paying line of that symbol.

3 of a kind = 6 extra symbols

4 of a kind = 8 extra symbols

5 of a kind = 10 extra symbols

#### Hi Roller Feature

Our innovative new Hi Roller mode steps up the excitement levels! The bigger the bet, the bigger the prizes that are up for grabs. A €20 bet will guarantee you a Wild for every five spins, and a €30 bet will guarantee you a Wild on both the spins and the outer wheel in the double chance game.

Want even more excitement? Bet €50 and you'll receive both the additional wilds and strikes, plus an extra marker that spins both ways on the outer wheel – increasing your chances of hitting the Joker Strike feature!
