Game Features

Free Spins

When you get more than 3 bonus symbols in a single game round, you get 10 Free Spins! You can always see how many Free Spins bonus symbols you've collected in the Bonus meter. Each spin in the Free Spins Bonus has a guaranteed Multiplier Wild symbol! This symbol needs to be a part of a winning bet line to add to the win multiplier.

Respin feature

Any winning combination in a spin will trigger the Respin feature! When this happens, all winning symbols will lock in place and the rest of the symbols will respin. Any symbols that add to a winning bet line will be locked, and the game will respin again. The feature ends when there are no more winning combinations, and the total win is paid out when there are no more respins.

Multiplier Wild Feature

This feature can lead to big wins! When a Multiplier Wild symbol is a part of a winning combination, it will award a multiplier to all the wins in that game round.

- 1 Multiplier Wild symbol - All wins x2
- 2 Multiplier Wild symbols - All wins x3
- 3 Multiplier Wild symbols - All wins x4
- 4 or more Multiplier Wild symbols - All wins x5

The Multiplier Wild symbol substitutes all other symbols (except the Free Spin Bonus symbol).
