

DRAGON CHASE

With a fiery dragon that 'breathes' Wildfires onto the reels, a Free Spins Bonus, and a Dragon Pearl Respin feature with 4 jackpots, this slot is guaranteed to give you a fun, unique and thrilling gaming experience! And the larger your bet, the greater your chances of winning the GRAND jackpot!

Dragon Chase is so much more than your standard slot game, as it's both a great slot game and a jackpot game.

And that's not all. We've also made TWO versions of the game, which is completely unique – so you get two for the price of one!

Operators can choose to run one version or both, which lets you target a wider range of players at the same time. The game will have multijurisdictional support and it will use an operator specific/local jackpot.

GAME FEATURES

Wildfire feature

The Wildfire feature keeps things fiery with Wilds! It's randomly triggered in both the base game and the Free Spins Bonus. 1-5 Wildfire symbols can appear randomly on any reel, and they move down one position for every spin until they've moved off the reels.

Up to 10 Wildfire symbols can appear on the reels at any time (but they won't replace another Wildfire symbol). The symbols are saved separately for each bet option.

Free Spins Bonus

3 Bonus Scatter symbols on reels 2, 3 and 4 will trigger the Free Spins Bonus and award 10 free spins! Plus, if you get 2 Bonus Scatter symbols on reels 2 and 4, you'll get an additional 3 free spins in the Free Spins Bonus.

Additional Wildfire symbols will be added to the reels, and any symbols remaining on the reels at the end of the Free Spins Bonus will be carried over to the base game.

Dragon Pearl Respin feature

3 Jackpot Scatter symbols will trigger the Dragon Pearl Respin feature, which has 15 independent reels that all spin separately!

Each Dragon Pearl symbol has a random coin win value of 0.5-7x bet level.

First, 3 spins are awarded. If one or more additional Dragon Pearl symbols land on the reels, they're held in position and the number of remaining spins is reset to 3. The feature ends when there are no remaining spins left, or when you've collected all 15 Dragon Pearl symbols.

-4-7 Dragon Pearl symbols award the MINI Jackpot
-8-11 Dragon Pearl symbols award the MINOR Jackpot

-12-14 Dragon Pearl symbols award the MAJOR Jackpot

-15 Dragon Pearl symbols award the progressive GRAND Jackpot

-The chance of winning the progressive GRAND Jackpot correlates positively with the bet size.

You can always see how many Dragon Pearl symbols you've collected in the Jackpot Meters above the reels (Dragon Pearl symbol awards are paid on top of any Jackpot win).

The larger your bet, the greater your chances of winning the GRAND jackpot!

At the end of the Dragon Pearl Respin feature, the game returns to the same round that activated the feature in the base game.
