GOLDEN GLYPH

Need to escape the November darkness? Take a trip to ancient Egypt with Golden Glyph!

Channel your inner Indiana Jones and get ready to embark on an epic adventure in the land of the Pharaohs. Spin the reels, wait for the dust to settle, and let the hieroglyphs reveal your fortune.

This stunning and feature-rich slot boasts a 7x7 layout that's perfect for our new portrait mode! The features include Tumble Mechanics, a Power Wild feature, and a Power-Up feature with four magical Power-Ups: Golden Scarab, Eye of Horus, Blaze of Fire, and a Free Spins Bonus.

The Golden Scarab spreads wealth on the grid (4-10 Wilds), the Eye of Horus uses its magic to remove low-paying symbols and transform them to payouts, and the Blaze of Fire burns up all the normal symbols in any row and column that crosses its path and transforms them to payouts!

And keep an eye out for the special Golden Glyph Wild symbol in the Free Spins Bonus – this symbol holds all the keys to a BIG win. If you're lucky, you can win up to 13,000 x your bet!

Game Features

Tumble Mechanics

The Tumble Mechanics are available in both the base game and the Free Spins Bonus! Any symbols that are a part of a winning cluster will be removed, and the empty positions fill up with new symbols that come falling down from above.

Any new wins will be added to the existing win. The tumbling ends when there are no new winning clusters.

Power Wild

The Power Wild feature is available in both the base game and the Free Spins Bonus! After the winning symbol clusters have been removed and before the tumbling, a Power Wild will be awarded in one of the empty positions on the reels.

At most, one Power Wild will be awarded per tumble. A Power Wild is evaluated and removed as a Wild, and an additional Power-Up will be activated for each Power Wild that's removed.

If the Free Spin Bonus Power-Up is activated, all unused Power Wilds will be turned into Wilds. No additional Power Wilds will be awarded during the remaining tumbles for that spin.

Power-Up feature

The Power-Ups will be activated when you get a Power Wild win! This game has 4 Power-Ups: Golden Scarab, Eye of Horus, Blaze of God, plus the Free Spins Bonus Power-Up.

At the beginning of each spin, 5 Power-Ups are randomly determined on the golden wheel. The last Power-Up is always the Free Spins Bonus Power-Up, and the remaining four are randomly awarded from the other Power-Ups (Golden Scarab, Eye of Horus, Blaze of God).

Power-Ups are charged up for each Feature Wild that's consumed as part of a win. When there's a non-winning screen, charged up Power-Ups will be executed and activated in the order they were charged up. Any charged up Power-Ups will be activated.

Golden Scarab Power-Up

The Golden Scarab spreads Wilds on the reels! This Power-Up spawns 4-10 randomly placed Wilds in the game area, which is followed by a win evaluation.

Eye of Horus Power-Up

The Eye of Horus removes low paying symbols! This Power-Up targets one randomly selected low paying symbol and removes all occurrences of that symbol in the game area, followed by a tumble and a win evaluation. Each removed symbol will award 1/20 of your current bet.

Blaze of Fire Power-Up

The Blaze of Fire burns all normal symbols that gets in its way! This Power-Up is summoned in a random location, and then removes all normal symbols in both the row and the column. Each removed symbol will award 1/20 of your current bet.

The Wild, Power Wild, and Golden Glyph Wild symbols will not be removed by the Blaze of Fire.

Free Spins Bonus

When the Free Spins Bonus is activated in the base game, you will get 9 free spins! You will also get an additional 3 free spins every time it's activated inside the Free Spins Bonus.

During the first free spin, the special Golden Glyph Wild symbol will be placed in a random location. This symbol is your chance to win BIG – if you manage to level up the Golden Glyph Wild all the way to x99, you can win a whopping 13,000 x your bet!

The awarded Golden Glyph Wild and the indicated multiplier will carry over to the next free spin until the Free Spins Bonus ends. With each free spin, the Golden Glyph Wild will move randomly to a new location on the reels. The Golden Glyph Wild does not tumble, and it's not removed after a win evaluation.
