

WILD CHASE TOKYO GO

WILD CHACE TOKYO GO

Think fast cars, expensive watches, luxurious jewellery, and four characters that are easy on the eye.

Navigate the dazzling streets of Tokyo and immerse yourself amongst the slick skyscrapers and neon lights in this thrilling adventure. This exciting and feature-filled slot holds all the keys to a big win!

The unique 3, 3, 4, 4, 5 reel layout starts at 76 possible ways to win, which increases whenever consecutive wins are hit – and it all culminates in a chance to play the ‘Super Respin’ with 259 ways to win!

All the winning symbols are held in place in the Respin feature, and the respins continue as long as the same symbol appears on the reels.

Game features

Respin on any win

When you get a winning combination in any spin in the main game, it will activate a respin! With each respin, the number of ways to win increases.

The winning symbols move one position to the left, and all the remaining symbols stick for the respin. The reel grid increases for each respin (up to 5x5!), and the respin continues until there are no more wins.

Super respin

The Super Respin gets activated after your fourth winning respin! In Super Respin, all winning symbols stay in place and the game respins until there are no additional winning symbols on the reels. Wins are paid for each respin.
