### Game Features

Flip Royale is a 5x3 slot with 10 paylines, boasting a Coin Flip feature and a Free Spins Bonus.

#### Coin Symbols

In addition to triggering any win on paylines, the four different Coin symbols can also trigger the Coin Flip feature. When all three positions on any reel are filled with the same Coin symbol, it triggers the Coin Flip feature.

#### Coin Flip

When all three positions on one or more reels are filled with the same Coin symbol, it triggers the Coin Flip feature. Each of the three Coin symbols will also generate an additional Coin symbol of the same value, which will be randomly placed in the play area.

If multiple Coin symbols trigger the feature on the same spin, the generated symbols will be Wilds. If additional reels are filled by the same Coin symbol or Wild during the feature, these symbols will also generate additional symbols.

All wins in the play area will be paid out both before and after the Coin flip feature.

#### Free Spins Bonus

When you land 3, 4, or 5 Bonus Scatter symbols in the play area, you will be awarded 6, 10, or 20 free spins respectively. In the Free Spins Bonus, the Coin Flip feature is guaranteed to happen on every spin.
