## QUICKSPIN

### Game Features

#### Flaming Respins

When you get a Flaming Skull Wild symbol on the reels, it will trigger the Flaming Respins feature! Before each respin, all new Flaming Skull Wild and Skull Wild symbols are launched to break open a new symbol position above the reel that they've landed on. If there are no positions to open, they will stay where they are.

When you win on a Flaming Skull Wild during a Flaming Respin, its fire will go out and it will turn into a regular Skull Wild. The respins will continue as long as there are Flaming Skull Wilds left on the reels. Any new wins will be added to the existing win and are shown in the WIN field.

#### Flaming Free Spins

When you get 3 Treasure Chest symbols, it will trigger the Flaming Free Spins bonus with 8 free spins!

The Flaming Free Spins also includes the Flaming Respin feature. In the Flaming Free Spins, the increased reel height that's caused by the Flaming Respins does not decrease once the respins have ended, and the Skull Wilds increase the reel height even outside of a Flaming Respin.

1 additional Free Spin will be awarded for each reel that expands to 6 symbols in height. The Flaming Free Spins bonus will continue until there are no Free Spins left.
