

WILD CAULDRON

Step into a witch's lair and prepare to be spellbound! What's cooking in this Wild Cauldron? A mysterious concoction is brewing, and it's sizzling with playful monsters, magic potions and high volatility.

This fun and colourful slot boasts tons of exciting features, like fresh tumble mechanics, locked symbols, expanding reels, a Multiplier, and a Free Spins Bonus!

When you hit a win, all winning symbols stay on the reels and all non-winning ones are removed. And if you're lucky, the symbols just keep coming, stacking higher and higher like a self-playing piano (if you unlock the full reel, you get 48 symbols on the screen at the same time!).

The game starts off with a 4x6 grid and 4,096 bet ways, which can expand all the way up to 8x6 with 262,144 bet ways – so there's a chance to win up to 21,000 x your bet!

QUICKSPIN

Game Features

Locking Symbol Tumble

A winning line will trigger the Locking Symbol Tumble! During this feature, any winning combination will be locked and accumulated at the bottom of the reels. All non-winning symbols are removed and swiftly replaced by new symbols that tumble in.

And each win will increase the number of bet ways, which can go all the way up to 262,144!

Expanding Ways

Every tumble that gives you a winning combination of symbols will increase the number of bet ways in the tumble sequence! It will add 1 additional row of symbols, with a maximum total of 8 rows, which means that the game becomes an 8x6 grid at maximum expansion.

The reels reset themselves at the end of each tumble sequence, and the sequence ends when there are no more winning combinations.

Free Spins

When you get 4 or more Bonus Scatter symbols in a single tumble sequence, it will trigger the Free Spins Bonus! The number of Free Spins depends on the number of Scatter symbols in the trigger (the maximum number of Scatter symbols is 6, which will give you 12 free spins).

Inside the Free Spins Bonus, 2 additional Scatter symbols in a spin will give you 2 more Free Spins. The Expanded Ways and Win Multipliers are both persistent between spins for the entire duration of the bonus game.

Win Multiplier

If you get a Wild symbol on the reels during a tumble sequence, it will increase the Win Multiplier by 1! The multiplier can go as high as up to 7 for a single spin. The multiplier will reset at the end of the tumble sequence.
