

BIG BAD WOLF MEGAWAYS™

BIG BAD WOLF MEGAWAYS™

Big Bad Wolf Megaways will blow your mind with its top-notch graphics, Tumble Mechanics, a Multiplier that climbs in the Free Spins Bonus (it increases with each tumble), up to 117,649 paylines. This game is one of our big highlights of 2021, merging one of our most iconic IPs and best-performing games ever with the Megaways version.

Uh-oh, the three little pigs better watch out... the world's most tenacious wolf is back and he's more determined than ever to blow down their houses and serve them up for dinner – mega determined!

After running around in the woods all day, harassing squirrels, shouting at deer, and throwing stuff at birds, he's dying for some grub. And the pigs just seem like the most delicious, protein-rich, and mouth-watering appetizers.

With months passing since his last attempt, he's meaner and leaner in every way. Equipped with stronger lungs, awesome Multiplier powers, and a whole new Megaways reel set, this wolf is practically unstoppable. Will the pigs be able to get Wild enough to defend themselves, or will they end up garnished with salt and pepper?

Game Features

Megaways™

Depending on the number of symbols that land on the reels, each spin offers different combinations of ways to win. If you land a total of seven symbols on each of the six reels, you can win 117,649 Megaways™!

Tumbling Reels

Any symbols included in a winning combination will be removed from the play area and new symbols will take their place.

The symbols tumble from top to bottom in the drop area, and from right to left in the slide area. The tumbling continues as long as there are new winning combinations on the reels. Each tumble win is added to the total win.

Piggy Wild

After 2, 4, and 6 tumbles, the first, second, and third Piggy symbol will turn into Piggy Wilds on reel 2, 3, 4, and 5.
