

HIGH STREET HEIST

HIGHSTREET HEIST

In an affluent area of a big city, where the streets are lined with designer boutiques, posh shops, and high-end restaurants, lies an iconic jewellery store. Sandwiched between Dior, Chanel, and Luis Vuitton shops, this world-renowned store attracts the rich and famous with its precious gemstones, dazzling jewels, and valuable watches.

The rows upon rows of glittering goods have also caught the eye of a seasoned career criminal, who is gathering his crew for one last heist – and they want you to join them. If you pull this off, you can spend the rest of your life sipping Piña Coladas on a remote beach in Mexico.

Join your fellow crew members and hop into the van with your dapper suits and creepy clown masks. Hit the store, grab as many valuables as you can, and make a dash for the exit while your adrenaline is skyrocketing. Enjoy the euphoric highs of executing an elaborate sting one last time. Will you be set for life or set behind bars?

High Street Heist starts out with low/medium volatility in the base game, which morphs into super-high volatility in the Free Spins Bonus with a full 1,024 ways on every spin – giving you a chance to win BIG!

Game Features

Stacked Reels

Stacked symbols that are 4 symbols high can occur on all reels.

Breaking the Glass

When a 4 symbols high stacked symbol lands on the reels, it cracks the glazed middle rows (unless it's already been done in the same game round) and 1 respin is awarded.

Heist Free Spins

When all 5 rows are unfrozen in the base game, you'll get 10 free spins! No areas will be frozen in the Free Spins Bonus.

The meter will be reset after 4 stacks, and you'll get an additional 2 free spins after the reset. It also converts the lowest paying mediums/the robbers to the Diamond symbol. When all Robber symbols are converted to Diamonds, filling the heist meter awards +1X multiplier on all Diamond symbols and awards +2 Free Spins.
