MEGAWAYS™
Each spin has a different number of ways to win, depending on the total number of symbols that land on each reel.

Multiplier Wilds
The Multiplier Wilds symbols can appear anywhere on reels 2-5 and will substitute for all symbols, except for the Scatter symbol.

If 2 or more Multiplier Wilds symbols appear on the screen and they're both part of the same win, the corresponding multipliers will be multiplied. In the base game, the Multiplier Wilds symbols will have the same multiplier value as the reel (2-5) they land on.

Free Spins Bonus
When you land 3 or more Scatter symbols anywhere on the reels, it will trigger the Free Spins Bonus. A Bonus Picker screen will then appear, displaying 4 different feature options.
The free spins are played at the same bet level as the triggering game.
The Scatter symbol is not available during the Free Spins Bonus.

Buy Feature
The Buy feature can only be activated in the base game. By paying 90 x your bet and buying 3 Scatter symbols, you can buy instant entry to the Free Spins Bonus.
The Free Spins Bonus will be triggered by a base game spin that randomly awards the same number of Scatters that you purchased.
The Buy feature may not be available in all markets.

Gamble
When entering the Free Spins Bonus you can choose to gamble your existing free spins for a chance to win more of them (unless the Free Spins Bonus has been triggered by 5 Scatter symbols).
There's a 50/50 chance of getting 4 Scatter symbols when having 3 of them, and a 50/50 chance of getting 5 Scatter symbols when having 4 of them.
