CANDY GLYPH

(96%)

TUMBLE MECHANICS

The Tumble Mechanics are available in both the base game and the Free Spins Bonus! Any symbols that are a part of a winning cluster will be removed, and the empty positions fill up with new symbols that come falling down from above.

Any new wins will be added to the existing win and the tumbling ends when there are no new winning clusters.

CANDY WILD

The Candy Wild feature is available in both the base game and the Free Spins Bonus! After the winning symbol clusters have been removed and before the tumbling, a Candy Wild will be awarded in one of the empty positions on the reels.

At most, one Candy Wild will be awarded per tumble. A Candy Wild is evaluated and removed as a Wild, and an additional Power-Up will be activated for each Candy Wild that's removed.

If the Free Spin Bonus Power-Up is activated, all unused Power Wilds will be turned into Wilds. No additional Power Wilds will be awarded during the remaining tumbles for that spin.

POWER-UP FEATURES

The Power-Ups will be activated when you get a Power Wild win! This game has 4 Power-Ups: Bonbon Bombs, Bouncy Bean, Lollipop Rocket, Bonus Pinata.

At the beginning of each spin, 5 Power-Ups are randomly determined on the candy wheel. The last Power-Up is always the Free Spins Bonus Power-Up, and the remaining four are randomly awarded from the other Power-Ups.

Power-Ups are charged up for each Power Wild that's consumed as part of a win. When there's a non-winning screen, charged up Power-Ups will be executed and activated in the order they were charged up. Any charged up Power-Ups will be activated.

BOUNCY BEAN

The Bouncy Bean spreads Wilds on the reels! This Power-Up spawns 4-10 randomly placed Wilds in the game area, which is followed by a win evaluation.

LOLLIPOP ROCKET

The Lollipop Rocket removes low paying symbols! This Power-Up targets one randomly selected low paying symbol and removes all occurrences of that symbol in the game area, followed by a tumble and a win evaluation. Each removed symbol will award 1/20 of your current bet.

BONBON BOMBS

The Bonbon Bombs burns all normal symbols that gets in its way! This Power-Up is summoned in a random location, and then removes all normal symbols in both the row and the column. Each removed symbol will award 1/20 of your current bet.

The Wild, Candy Wild, and Bonus Pinata symbols will not be removed by the Blaze of Fire.

BONUS PINATA

When the Free Spins Bonus is activated in the base game, you will get 9 free spins! You will also get an additional 3 free spins every time it's activated inside the Free Spins Bonus.

During the first free spin, the special Bonus Pinata symbol will be placed in a random location. This symbol is your chance to win BIG – if you manage to level up the Bonus Pinata all the way to x99, you can win a whopping 13,000 x your bet!

The awarded Bonus Pinata and the indicated multiplier will carry over to the next free spin until the Free Spins Bonus ends. With each free spin, the Bonus Pinata will move randomly to a new location on the reels. The Bonus Pinata does not tumble, and it's not removed after a win evaluation.
