BALL LAUNCHER

This is where all the balls get launched into the game.

PEGS

Balls hit the pegs when falling and how they traverse the course depends on how they hit these pegs.

AWARD POCKETS

If a ball lands in one of the award pockets, the ball's journey ends and you get the value of the award pocket.

AWARD GATES

If a ball passes through one of the Award Gates, you get the value of the award gate, and the ball's journey continues.

BONUS POCKETS

For each ball that lands in a Bonus Pocket, one ball is added to the next Bonus Game. The Bonus Game starts after all the current balls have completed their runs.

PORTAL GATES

Balls that enter a portal gate will be transported to the connected Portal Exit.

RE-LAUNCHER

Each ball landing in one of the Re-Launchers will re-launch 3 new balls from the Ball Launcher at the top of the playing field.

BETS

You can set how much you want to bet per ball and launch between 1 and 100 balls in one go.

BONUS GAMES

For each ball that lands in a Bonus Pocket, one ball is added to the next Bonus Game after all the current balls have come to rest. Each Bonus Game has bigger awards the longer you progress over the pirate map. The Bonus Games are:

KRAKEN PENINSULA

There are at least 8 strong reasons not to go here and the same 8 arguments that you will have to win to pass to the next level. But there will be loot no matter what you do!

MERMAID COVE

The mermaids seem friendly at first, and so many a scallywag will come here but never leave. But not you, because you are a proper pirate!

EXTRA BET

By paying 1.5x bet you will add an extra Bonus Pocket to the playing area, increasing the chance to get the Bonus Game.

BUY FEATURE

You can buy entry into the Bonus Games. By paying 4x or 7x bet you will launch all your balls directly into the first or second Bonus Game. The Bonus Game works the same as when triggered by chance.

Buy Feature may not be available in all markets.
