

A cartoon capybara with orange-brown fur, a green cap with a yellow star, and a friendly smile. It is holding a small brown bird with orange beak on its head. The capybara is holding up large, 3D, yellow-orange block letters.

ELCAPY

A stylized orange and red flame-like shape containing the text "BLAZE TRAIL" and "1000".

BLAZE TRAIL
1000

Meet Capy, a lovable capybara with more character than a bowtie-wearing bulldog. He's the Amazon's biggest party animal: a samba-loving, juice-slurping legend whose thirst for dancing and music is matched only by his craving for the juiciest fruits the rainforest has to offer.

El Capy is a vibrant 3x5, 5 line game, designed to maximize player engagement and retention through its signature Blaze Trail 1000 game. This feature is triggered by 3 or more El Capy symbols landing anywhere on the reels, instantly activating a high-impact bonus round that keeps players coming back.

EL CAPY SYMBOL

El Capy symbols can appear anywhere on the reels. 3 or more El Capy symbols trigger the Blaze Trail 1000 game.

BLAZE TRAIL 1000

3 or more El Capy symbols appearing anywhere on the screen starts the Blaze Trail 1000.

When the Blaze Trail 1000 starts, all symbols are removed from the reels except for the El Capy symbols, and a respin is triggered.

Landing 1 or more El Capy symbols during the game awards an additional respin.

For every new El Capy symbol that lands, the meter increases by one.

The win is determined by the total number of coins landed after all respins have concluded, with players being awarded a multiplier.

BUY FEATURE

By paying 50 x the bet, you can buy entry into the Blaze Trail 1000 with 3 or more El Capy symbols and a random buy feature multiplier of 2x, 3x, or 5x that multiplies the meter multipliers.

Buy feature may not be available in all markets.
