## BALL LAUNCHER

This is where all the balls get launched into the game.

## PEGS

Balls hit the pegs when falling and how they traverse the course depends on how they hit these pegs.

## AWARD POCKETS

If a ball lands in one of the award pockets, the ball's journey ends and you get the value of the award pocket.

## AWARD GATES

If a ball passes through one of the Award Gates, you get the value of the award gate, and the ball's journey continues.

## BONUS POCKETS

For each ball that lands in a Bonus Pocket, one ball is added to the next Bonus Game. The Bonus Game starts after all the current balls have completed their runs.

## RE-LAUNCHER

Each ball landing in one of the Re-Launchers will re-launch 3 new balls from the Ball Launcher at the top of the playing field.

## BONUS GAMES

For each ball that lands in a Bonus Pocket, one ball is added to the next Bonus Game after all the current balls have come to rest. Each Bonus Game has bigger awards the longer you progress over the pirate map. The Bonus Games are:

### SHIP GRAVEYARD

The entrance to the long-lost treasure lagoon, riddled with all the landlubbers that came before you

### FIRE ISLAND

This is it. The end of the line. And the line is on fire, so are your sails. And there goes the first mate up in flames. Grab what you can and get out before your entire ship is reduced to cinders.

### EXTRA BET

By paying 1.5x bet you will add an extra Bonus Pocket to the playing area, increasing the chance to get the Bonus Game.

## BUY FEATURE

You can buy entry into the Bonus Games. By paying 4x or 12x bet you will launch all your balls directly into the first or second Bonus Game. The Bonus Game works the same as when triggered by chance.

Buy Feature may not be available in all markets.
